Southern California

2022 - 2023

Annual Report

Academic Honors and Fellowships

Photo by Jose Botello-Herrera and Ryan Von Keyserling, 2023 Global Scholar Prize Winners taken while studying abroad in Montserrat mountain range in Barcelona, Spain

Renewed Energy and Purpose

The 2022-2023 academic year brought an increase of activity and engagement to Academic Honors and Fellowships (AHF). As a community, we rose from the pandemic with new stories and refocused aspirations. For example, there was a 40% increase in Undergraduate Writers' Conference participants, UK graduate study prestigious scholarship applicants, and those who graduated with a 4.0 overall GPA. In total, AHF students garnered nearly \$700,000 in external funding that will support graduate study, research, and language study beyond our campus.

Other Indicators of success this year include our first Truman Scholarship recipient since 2019 and USC being named a [Top Producing Institution for Fulbright U.S. Students](#) – the most of any California institution for 2022-2023. In such a complicated world, it is comforting to know that students remain ready to travel the globe to share their knowledge, experiences, and learn from others. We are very proud that the scholars featured on these pages and know that they will represent USC and their communities well in their future endeavors.

The role of the AHF staff is to engage students early and often and support them in:

- clarifying their ambition through engagement in high-impact practices,
- developing skills in critical thinking and reflection, and
- building meaningful relationships with faculty, staff, and their peers.

We present this annual report in celebration of the year's honorees, the participants of our Signature Academic Events, the faculty who partnered with us in mentoring them, and the valuable advising pipeline USC AHF has established.

Fight on!

Andrew McConnell Stott
Vice Provost, Academic Programs

2023 Valedictorian Isha Sanghvi at the 140th Commencement

By the Numbers

Award	Nominees	Awardees	Success Rate	Award Estimate	Total
Astronaut	2	1	50%	\$15,000	\$15,000
Boren	8	6	75%	\$25,000	\$150,000

Truman	3	1	33%	\$30,000	\$30,000
TOTAL	97	31			\$698,000

Funding Review for the 2022-2023 grant year, AHF award portfolio

Our Mission

Grounded in the mission of Academic Programs, USC Academic Honors and Fellowships (AHF) supports students in their pursuit of transformative academic experiences.

We offer advisement, programming and resources that encourage the exploration and attainment of high-impact experiential learning opportunities.

We partner with USC faculty, staff and alumni to support applicants throughout prestigious fellowship application processes that require evaluation, endorsement and feedback.

We also advise the Trojan Scholars Society student association to promote a vibrant scholarship community.

At the start of my Truman Scholarship application process, I was completely unfamiliar with and intimidated by this world of prestigious graduate fellowships. Frankly, I didn't think I had a chance of winning. The incredible staff at AHF offered vital support at every turn, from mock interviews with faculty to constructive criticism of my essays. They not only made the process far less stressful, but they also helped me learn new things about myself and my path toward public service through their thoughtful guidance.

Michael Solomon '23

USC Awards

USC recognizes the outstanding abilities of its undergraduate students and has created various opportunities to financially support students in their pursuit of interdisciplinary study, global exchange, and civic engagement. Here are a few of the unique opportunities facilitated by Academic Honors and Fellowships that are available to USC undergraduate students.

ACADEMIC ACHIEVEMENT AWARD

The Academic Achievement Award (AAA) provides a tuition benefit to students who have at least sophomore standing and have earned a cumulative USC GPA of at least 3.75. The award allows Fall or Spring registration of up to 21 units at the standard full-time tuition rate, so students can complete multiple undergraduate degree objectives without adding to their time-to-degree.

AAA applications continue to grow annually. This year, 830 undergraduates across a variety of disciplines were awarded more than \$3.6 million dollars in tuition credit to support their ambitious academic pursuits.

AFRICAN STUDENT FUND

The USC Africa Student Fund is a scholarship intended to support undergraduate student travel to African countries for study, research, service-based learning and internships. Students who have identified a project or program are invited to apply with this funding in mind. Winners may receive full or partial funding to help cover airfare costs associated with their proposed project or program.

LEONARD D. SCHAEFFER FELLOWS IN GOVERNMENT SERVICE

The Schaeffer Fellows program exposes talented undergraduates to government work and its impact through high-level, full-time summer internships at the local, state, and federal levels.

In 2022, ten USC students joined a national cohort of 50 Fellows for internships in offices including the U.S. Department of Health and the California Department of Transportation. In addition to a \$5,500 stipend, Fellows attended the national Schaeffer Fellows Summit in Washington, D.C. The University honored their contributions to public service at a virtual fall recognition event.

Program alumni went on to earn prestigious honors including USC Salutatorian and Discovery Scholar Prize, as well as competitive post-graduate awards like the Fulbright U.S. Student Program.

Bryneé Evans, Spring 2023 Africa Student Fund Recipient during semester in South Africa

USC students attending the 2022 Schaeffer Fellows Summit in Washington, D.C.

Micro-Seminars

Fall 2022 marks the 17th year for the Micro-Seminars program, which aims to enhance interactions between our faculty and first-year undergraduates. In line with President Folt's vision for sustainability, we encouraged topics related to sustainability, especially USC's signature focus on the intersection of sustainability with topics of social justice, diversity, equity, and inclusion. AHF hosted 53 Micro-Seminars with faculty across 19 USC Schools and offices.

" I think these seminars will inspire students to explore disciplines they didn't know about before. Quite a few students came to me at the end asking about how to get started in designing wearables. That's really rewarding.

2022 Micro-Seminar Faculty Presenter

Professor Jeremy Kagan's Micro-Seminar, "Using Media to Inspire Sustainability"

Professors Joyce Javier and Rodney To's Micro-Seminar, "Achieving Diversity in Medicine and Theatres"

Research & Fellowships Week

Open to students of all academic levels, Research and Fellowships Week offers interactive sessions and panels highlighting opportunities for research, graduate study, language learning, teaching and internships within the U.S. and abroad. The 8th Annual Research and Fellowships Week on October 31 - November 4, 2022 offered both in person and virtual sessions. Highlights included International Student Funding, STEM Scholarships and Fellowships, and Chasing Dreams: How the Fisher Fellowship Puts First-Gen Students 'On the Map' in Exchange for Volunteer Service.

 A poster for Research and Fellowships Week, October 31 - November 4, 2022. It features a red background with white and yellow text. The poster lists session highlights for each day:

- Monday, October 31st** (12-12:50pm PDT): Fellowships 101 (Undergraduates - Virtual)
- Tuesday, November 1st** (12-12:50pm PDT): USC Scholar Distinctions (Undergraduates - Virtual)
- Wednesday, November 2nd** (12-12:50pm PDT): STEM Fellowships (Undergraduates - Virtual)
- Thursday, November 3rd** (12-12:50pm PDT): International Student Funding (Undergraduates - Virtual)
- Friday, November 4th** (12-12:50pm PDT): Fulbright U.S. Student Program (Undergraduates - Virtual)
- Thursday & Friday, Nov 3rd & 4th** (2-3:30pm PDT): AHF Open Office Hours (Undergraduates - STU 300)

 On the right side of the poster, there are small portraits of several individuals, including a woman with a USC logo, and a man with a USC logo. At the bottom right, there is a large white letter 'F' on a red background, with the name 'Ford Cullen' below it.

Scholar Distinction Alumni Panelists from left to right:

- Adam Karelin, Renaissance Scholar Prize Winner
- Leena Mathur, Global Scholar Prize Winner, Renaissance and Discovery Distinction
- Serena Allen, Global Prize Winner, Discovery Distinction

Undergraduate Symposium

Now in its 24th year, the Undergraduate Symposium for Scholarly & Creative Work provides students with the unique opportunity to exhibit and share examples of their research with the university community. This year we were able to host the event on April 12, 2023 with an awards ceremony on April 13, 2023. Students submitted projects themed around a broad category of study, including Arts & Architecture, Humanities, Life Sciences, Physical Sciences, Mathematics & Engineering, and Social Sciences. The Symposium exhibited 89 undergraduate submissions with participation from 104 students. Works were evaluated by 43 faculty judges across nearly all USC Schools.

Catcher Salazar and Christian Chung, 2023 Research Symposium Interdisciplinary Award

Celebration Dinner & Awards Ceremony for Symposium and Writers' Conference participants

Undergraduate Writers' Conference

The Undergraduate Writers' Conference is a partnership between USC's Office of Academic Programs and The Writing Program. The purpose of the event is to share and celebrate writing from current undergraduate students across all fields of study and offer a space to receive feedback from peers and faculty.

In its 20th year, the Conference featured a new element with faculty-led juried workshops along with a heartfelt keynote address by author María Amparo Escandón. Of the 278 pieces submitted, 85% were authored by students participating in the Undergraduate Writers' Conference for the first time.

Keynote address by New York Times best-selling bilingual author María Amparo Escandón

Signing books for aspiring Trojan writers

Commencement Honors

VALEDICTORIAN & SALUTATORIANS

The USC selection process for Valedictorian and Salutatorians recognizes students who have attained the highest levels of academic achievement. It is also holistic and takes into consideration other components such as service and leadership. This year 180 graduating students who had earned a cumulative USC grade point average (GPA) of 3.980 or higher were invited to apply.

The 2023 USC Valedictorian and Salutatorians are (from left to right):

- Isha Sanghvi, Neuroscience (B.S.) | Valedictorian
- Liam Tsao, History (B.A.) & Social Sciences (Economics) (B.A.) | Salutatorian
- Carina Robles, Political Science (B.A.) | Salutatorian

USC PROVOST AWARD

is granted to graduating seniors who have attained the highest scholarship average (4.0 GPA) of all undergraduate transfer students at the University.

- Karen Abe
- Amy Anchi Li Chen
- Sami Chmait
- Haoran Chu
- Kathryn Ehrbar
- Wei Long Fam
- Guadalupe Gutierrez
- Ashley Heravi
- Rachel Kim
- John Klotowski

USC SCHOLAR DISTINCTIONS

Renaissance Scholars, Discovery Scholars, and Global Scholars are academic honors that recognize graduating seniors. Scholars receive a medallion for graduation, have their distinction noted on their final transcript, and can apply for consideration for the Prize Competition. Each year, ten students from each of the three distinctions are selected for a \$10,000 prize towards graduate study.

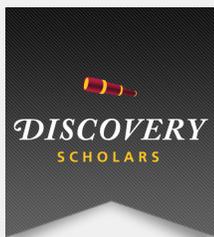

STEVEN AND KATHRYN SAMPLE RENAISSANCE SCHOLARS recognizes undergraduate students who have excelled in their studies while completing a major and a minor (or two majors) in widely separated fields of study. For the 2022-2023 cycle, USC recognized 293 Renaissance Scholars, and 10 have been selected as prize recipients.

- Meredith Byrnes, East Asian Languages and Cultures (B.A.); Photography & Urban and Sustainable Planning minor
- Baoqi Chen, Journalism (B.A.) & Environmental Studies (B.S.); GIS and Sustainability Science minor
- Mateo Croom, Art (B.A.) & Mathematics (B.A.)
- Madison Hubbard, Philosophy, Politics and Law (B.A.) & Political Science (B.A.) & French (B.A.)
- Lingaire A Ofosuhene, International Relations (B.A.) & Narrative Studies (B.A.); Thematic Approaches to Humanities and Society minor
- Gillian Elaine, Sawyer Archaeology (B.A.) & Linguistics (B.A.)
- Urban Seiberg, Linguistics/Cognitive Science (B.A.); Photography & Speech-Language and Hearing Professions minor
- Jiatong Shao, Business Administration (B.S.) & International Relations and the Global Economy (B.A.) & Visual and Performing Arts Studies (B.A.)
- Rachel Tan, Psychology (B.A.) & Choral Music (B.A.)
- Alfredo Torres, Psychology (B.A.) & French (B.A.); Philosophy of Law, Politics and Economics minor

GLOBAL SCHOLARS recognizes students who have excelled in their studies both at home and abroad. Students must spend at least 10 weeks abroad and complete a capstone project related to their international experiences. For the 2022-2023 cycle, USC recognized 25 Global Scholars, and 6 projects have been selected as prize recipients.

- Esmeralda Aceituno, Architecture (B.Arch.); Communication Design & Cinematic Arts minor
- Annabelle Asali, Architecture (B.Arch.)
- Jose Botello-Herrera, Architecture (B.Arch.) & Archaeology (B.A.)
- Maria Del Mar Rocio Gomez, Architecture (B.Arch.)
- Zhijie Jin, Architecture (B.Arch.)
- Ian Leung, Architecture (B.Arch.); Real Estate Finance minor
- Kelly Sadikun, Political Science (B.A.) & East Asian Languages and Cultures (B.A.)
- Benjamin Vogel, Health Promotion and Disease Prevention Studies (B.S.); Natural Science minor
- Ryan Matthew von Keyserling, Architecture (B.Arch.)
- Thomas Wang, Architecture (B.Arch.)
- Beryl Zhou, Health Promotion and Disease Prevention Studies (B.S.); Natural Science minor

DISCOVERY SCHOLARS recognizes students who have made a meaningful contribution to their field of study. Students must present original research or creative projects representing the culmination of their academic studies. For the 2022-2023 cycle, USC recognized 104 Discovery Scholars, and 10 have been selected as prize recipients.

- Lily Bai, Human Biology (BS); Health Care Studies minor
- William Kristian Vu Bostic, Biomedical Engineering (Electrical Engineering) (BS) & East Asian Languages and Cultures (BA)
- Nayeli Camacho, Public Policy (BS)
- Ammar Dharani, Neuroscience (BS); History & Science, Health and Aging minor
- Ashley Fulton, Music Production (BM)
- Jung Hwan Heo, Computer Engineering & Computer Science CECS (BS)
- Hunter Hinson, Communication (BA) & Political Science (BA)
- Samantha Shanne, Architecture (BARCH)
- Atharva Tewari, Global Studies (BA) & Journalism (BA)
- Helen Wu, Neuroscience (BS); Computer Science minor

Fulbright U.S. Student Program

USC produces more 2022-23 Fulbright students than any other university in California

Academic Honors and Fellowships has developed an extensive advising and evaluation process for applicants of the Fulbright U.S. Student Program. As a result, USC has been named one of the country's top producers of U.S. Fulbright students, with 22 Trojans receiving the prestigious grant during the 2022-23 award cycle.

Every so often we have the honor of facilitating application journeys that come full circle and the applicant becomes the mentor. Highlighted below are two Trojans who applied for Fulbright through USC nearly a decade apart, and crossed paths through AHF with a common goal to serve as teachers in Mexico.

The Student Perspective: "Talking through each step of the application process with professors and fellowship mentors made the entire process a lot more manageable. For example, when a professor from USC's writing department gave me feedback on my first draft of written pieces, I was able to get a clear direction on the edits that would make specific anecdotes stronger in my application; particularly, aspects of my story and experiences that align with the Fulbright mission. Moreover, my interview with the committee prepared me well for the panel layout during my actual interview in March. It also served as a final overview of my materials before submitting my application. I felt so much more relaxed and confident throughout the lengthy and long standing process. As I prepare to embark on my Fulbright journey, I continue to feel the AHF office support!"

Rianna Rios, 2023 Fulbright U.S. Student Program
English Teaching Assistantship, Mexico

The Campus Committee Perspective: "Serving on the review committee as a USC and Fulbright ETA Alum, is such a rewarding experience. Every time I review students' applications and learn about their accomplishments and future goals with Fulbright, I reminisce on my grant application journey and the excitement (and nerves) that I felt, at the possibility of me receiving a Fulbright ETA grant to Mexico. I truly value the opportunity to support and mentor such talented students, through their application process. It especially excites me and makes for a full circle story when a student I helped support, receives the Fulbright ETA grant to Mexico!!"

Andrea Valenzuela, 2015 Fulbright U.S. Student Program
English Teaching Assistantship, Mexico
USC Residential Education & Fulbright Campus Committee Member

In Their Words

Students reflect on their experiences applying for fellowships and discovering their passions.

Ammar Dharani
Goldwater, Fulbright, and Discovery Scholar

“ While I initially found the Goldwater application intimidating and thus difficult to begin, the AHF staff members guided me through the entire application process and equipped me with the tools to transform my scientific research into a competitive application. By applying to these fellowships, I not only learned how to translate complex scientific findings to a broader audience but also refined my passions and future career path. This experience has also connected me to a community of other passionate scholars who are driven by scientific exploration and societal change. I am motivated to give back to this community by mentoring aspiring USC students to pursue their passions and become competitive applicants for fellowships. ”

Joe Jocas
Boren and Fulbright Scholar

“ As someone with several—often competing—interests, I was eager to apply to multiple fellowships. The guidance offered by AHF encouraged me to focus on my passions and think critically about how I want to spend my time both during and beyond my undergraduate career at USC. Through individual workshop sessions, I was able to craft a more cohesive personal narrative and subsequently reflect on what was important to me. This led me to revisit my passion for teaching and solidified my interest in Eastern Europe and diplomacy, which allowed me to decide on the Fulbright English Teaching Assistantship in Anykščiai, Lithuania with confidence. ”

Carina Robles
Fulbright English Teach Assistantship (2023-2024)

“ Collaborating with the AHF office has been a highlight of my experience at USC. AHF staff, faculty, students, and alumni all contribute to a supportive environment for applicants to pursue various opportunities. In applying for a Fulbright English Teach Assistantship to Taiwan, AHF provided practical application assistance such as workshops, one-on-one advising, and a campus committee evaluation, all with the aim of helping my application reach its fullest potential. AHF showed me the door and equipped me with the tools to open it. In working with AHF, I have a newly found application confidence, a trait I will take with me for years to come. I am so happy I joined the AHF community, and I encourage all USC students to utilize this valuable resource. ”

"In the big picture of things, an undergraduate education is swift. And during that short time, students are exposed to broad ideas and deep experiences. They enter with fresh minds and ambition to find unique ways of adding value to scholarship and redefining citizenship. When reviewing their amazing work, I have no fear that they are on the right track to making this world a better place. And, I'm excited to see it happen."
